Ss Alban and Stephen Catholic Schools' Federation Weekly Newsletter

Advent has started...

We have started our Advent journey towards Christmas and the birthday of Jesus. Look at the special celebrations that we have had in both schools. In the Infant school, our youngest member of the Reception class marked the beginning of the journey by lighting the first candle on our wreath.

Infant Notices

Christmas Performances

Tickets for Christmas performances went home in book bags today. Please ensure you take your tickets to the performance with you. The children have been working so hard on their shows.. you're in for a real treat!

Maths Bring & Buy

Thank you to all the parents who helped setting up & serving at our bring & buy and for the generous donations. Children had great time and learnt a lot about using money in a real life context. Earlier in the week, some of the infant & junior children got together earlier in the week to do maths trails, it was so nice to see them working together to solve mathematical problems!

Junior Notices

Year 3 Egyptian Day

We really enjoyed our Egyptian day. We got to carve a bar of soap into the shape of scarab beetle. We also wrote our names with ink in hieroglyphics. Ms Stack poisoned Akhenaten by putting poison in the ink and making him draw upon himself! It was so much fun dressing up- we had a brilliant day! By Amirah and Saoirse.

Maths week

We have had lots of great activities taking place this week for our maths week. The children in the Junior school went to work with the younger children in the Infants and helped them on a maths trail. On Friday, the Year 6 children were using their measuring skills to make some delicious peppermint creams!

Wishing you all a wonderful weekend.
